

54 Button Panel 6706 Mimic

APPLICATIONS

- Designed to work with Pro-Bel/Snell Aurora Systems.
- Mimics the 6706 Dual 24 Source BPX with Breakaway (Mode 12).
- This is a direct replacement for Pro-Bel 6706 panels (no longer manufactured by Snell).
- Works on multi-drop chains with existing Pro-Bel panels.
- Working overrides.
- Can be programmed to mimic modes.
